In the Framework of the [EU Green Week](#), on 16 May 2019, ACR+ member Navarra will hold a workshop on **Good practices in waste prevention** at the Delegation of Navarra in Brussels. The Parliament of Navarra adopted a **law on waste and its taxation** in June 2018 with the aim of developing prevention measures to produce less waste, to implement high-quality separate waste collection and to establish a new taxation system that penalises landfilling and creates a waste fund. During the workshop, organisers will **introduce the new legal framework, together with good practices in waste prevention**. ACR+ members [Lipor](#) and [Bruxelles Environnement](#) will also have the opportunity to present actions developed on their territories,

The event will finish with an ACR+ wrap-up of good practices that could be exported to other regions.

Agenda:

- 10h – 10h20: The new (2018) Act on waste and its taxation of Navarra and first good results from the implementation of the Law, Raúl Salanueva, Government of Navarra
- 10h20 – 10h40: Biowaste Prevention: Good Practices developed with the community and for the community, Susana Freitas, LIPOR in Portugal
- 10h40 – 11h00: Three good examples in the area of waste prevention, Dr Henning Wilts, Wuppertal Institute in Germany
- 11h00 – 11h20: Brussels actions in the domain of enhancing a zero-waste behaviour within the population, Céline Schaar, Bruxelles Environment
- 11h20 – 11h40: Good practices that could be exported to/replicated in other regions, Paolo Marengo, ACR+
- 11h40 – 12h00: Discussion Delegation of Navarra in Brussels
